

Make the molecules that matter: fewer molecules = less time and cost

The Cresset Discovery Services advantage

- > Global reach
- > Flexible and scalable resources
- > Cost-efficient and cost-effective discovery
- > Team augmentation to deliver fully-integrated outsourced programs
- > Driven by our *in silico* expertise

Proven track record

- > Offering consulting services for over a decade
- > More than 200 projects completed
- > Scientists with over 150 years combined industrial experience
- > Broad range of targets and therapeutic areas

We make a difference

- > Bridge the gap from validated target biology to active molecules
- > Integrated med and comp chem resources backed up by global network of chemistry and biology partners
- > Reliable expertise from seasoned industry team
- > On-demand discovery

Working with us

- > Flexible working models
- > Software as a service
- > Comp chem on demand
- > Flexible service days
- > Collaborative agreements
